ENSURING FAIRNESS

We would usually only meet clients at their home if they are local. We have considered as to what is viewed as “local” and as a rough guideline this would be 10 miles from a Prosperity Law office.

Home visits can be arranged for clients more than 10 miles away from a Prosperity Law office however, the additional mileage will be chargeable at a rate of 55p per mile.

There may be occasions when the full administration of the estate is likely to be unusually time-consuming, for example where there are a large number of legacies or beneficiaries, farming or business interests or unusual assets. In this case, the price guide may not be an appropriate guide, and you will be advised otherwise. In such circumstances, we will either provide a revised estimate, or we can agree that any additional work will be charged at your representative’s hourly rate. We will not carry out any further work until any changes to our original estimate have been agreed in writing.

Representative’s Hourly Rates	
Partner	£395
Solicitor (dependent on post qualification experience)	£250 - £375
Trainee Solicitor (2 nd year)	£210
Trainee Solicitor (1 st year)	£200
Paralegal	£160
Legal Assistant	£150

When we are instructed in the administration of the estate, we send detailed client engagement letters to the Personal Representatives of the estate for agreement. Our first invoice is usually not submitted until we make the application for the Grant of Representation. After that the file will normally be invoiced monthly and a cost update provided with each invoice. These invoices are then settled from the estate assets as we collect them in.
